

Homework

The homework folder will be sent home every night. Please return the next day. The folder will contain their behavior calendar, reading passages, a current spelling list and a math page. In addition to the learning resources the folder may contain any information with regards to school activities and events. Please use the folder as a resource to help you understand what we are currently learning in class. Use these practice pages as your time allows to support and strengthen skills. As a first grade team, it is our hope that students will not have to spend more than 15 minutes per night, we understand that after school may include students' activities and important family time.

Sight words: Sight words will be sent home and it is encouraged that your student practice their sight words each night. Sight words help build more fluent readers.

Math Worksheet: Most math pages will have an "A" side which we do in class. The "B" side is intended for homework. As we proceed through the year, your child may complete both sides at school. If the "B" side is not completed at school, you may complete it at home.

Reading Out loud: Please listen to your child read their book/booklet each night. Students will be sent home with a reading book/booklet but may also read a book of their choice each night. This can be included in your family time! The more your child reads, the better reader he/she will become!
